REPUBLICAN PRINCIPLES

The United States of America is a Constitutional Republic, not a Democracy. Our Constitutional Republic is codified within the United States Constitution, which is the Supreme Law of the land. Our Constitution flows directly from the Declaration of Independence and the invaluable life experiences of our Founding Fathers. It is not subject to the whims of democracy. Our Constitution narrowly defines the rights of the federal government, and those powers not enumerated to it are reserved to the States or the People respectively. All efforts to redefine the United States of America as a “Democracy” shall be resoundingly rejected by this party.

We believe in limited government, individual liberty, natural rights, and personal moral responsibility. We believe Oklahoma should be a place of opportunity where people who work hard and abide by just and equally applied laws can pursue their own dreams with a reasonable expectation of success.

As Republicans, we believe:

- *Our rights of life, liberty, and property are natural rights granted to us by God, protected by the Constitution, to be defended by our elected officials.*
- *In the free exercise of religion and right to worship as we please without government intrusion or interference.*
- *God is the Author and Creator of life and that all human life, both born and, in the womb, should be protected.*
- *In traditional marriage; the union of one man and one woman.*
- *Economic freedom is the cornerstone of individual liberty and the private sector and free market principles are the best to stimulate economic development rather than government subsidies or programs.*
- *Revenues collected at all levels of government should be used only for well-defined, legitimate government functions, and should be carried out efficiently so that tax rates may be kept as low as possible.*
- *It is the right of every parent to act in their children’s best interest including health decisions and choosing the form of their education, whether at a public school, private school or education by other means.*
- *In welcoming immigrants, who want to legally seek freedom and opportunity, who want to work and who will embrace our values, learn the English language, and respect our Union’s border and State’s sovereignty.*
- *In Supporting and maintaining a strong national defense and advocate “Peace through Strength.”*
- *The Republican Party is the best vehicle for translating these ideals into positive and successful principles of government.*
- *That we are to function as a Constitutional Republic with undefined State power as described in the*

Constitution; where Oklahoma Sovereignty is considered constitutionally superior to a Federal Govt.

I. FAMILY

Preamble: *Traditional marriage, consisting of one man and one woman, is designed to provide for each family member's physical, emotional, financial, spiritual, and social well-being. Both parents are needed to support and encourage happiness, health, and a good education for their children; thus, creating the next generation of citizens who are constructive members of society. We believe God is the Author and Creator of human life and that each individual should be treated with dignity and compassion. We insist that any candidate receiving money and/or support from the Republican Party shall affirm and promote Traditional Marriage and Pro-Life values.*

A. Marriage, Children, and Adoption

We Believe

1. We believe that the family is the cohesive element that maintains social order and protects individual rights. The duty and privilege of nurturing our young people belongs to parents and the traditional family.
2. We believe employers and taxpayers should not be forced to violate their religious convictions or bear the cost of paying government benefits to "non-traditional marriages".
3. We believe children are a special gift from God, and their safety and protection are paramount. We support strict adherence to due process of law during child abuse investigations. We believe extended traditional family members should be eligible for foster care payments if a child is being placed into their foster care. Siblings should be kept together if possible. These Payments should be obtained from the negligent parent(s).
4. We believe that there are only two genders and sexes, male and female, determined at conception.

We Support

1. We support the sole right and responsibility of parents to rear, educate, discipline, nurture, provide healthcare and spiritually train their children without government interference.
2. We support holding the Department of Human Services and other agencies accountable and provide for civil and criminal penalties when these agencies are negligent or abuse their authority.
3. We encourage an adoption process that recognizes the rights of parents while maintaining safeguards for the children.
4. We support initiatives that encourage adoption.

We Oppose

1. We oppose the removal of children from responsible family members unless abuse allegations are confirmed or the child is in immediate danger.

3. We believe in the sanctity and value of human life from conception through natural death, unless forfeited by capital offense.
4. We believe abortions are contrary to the Word of God and must not be approved (or supported by) or included in our party platform; with no exceptions. We believe intentional abortion is murder and should be treated as such in accordance with our state laws.

We Support

microwave wireless radiation or deployment of 5G.

Addendum

Be it resolved that the abolition of abortion be brought to a full floor vote in both Oklahoma Legislative Chambers.

5. We support reasonable standards, which preserve the dignity of the elderly and vulnerable when in a retirement or nursing home.

E. Religious Freedom

We Believe

1. We believe our Founding Fathers based our Constitution, Declaration of Independence, Bill of Rights, and laws on the Bible and on traditional Judeo-Christian ethics and values. We believe these documents are the basis for law, order, and behavior, allowing individuals, including government workers and officials, the freedom to involve God in all activities according to their conscience.
2. We believe the Religious Clause of the First Amendment was meant to protect an individual's freedom of religion, not remove religion from public life.
3. We believe church leaders have the same freedom of speech rights as leaders of other organizations, without the threat of penalties, including the loss of tax-exempt status.

We Support

1. We support retaining the religious significance of national holidays and the display of religious symbols in public places and oppose the removal of such.
2. We strongly support federal and state legislation to encourage and preserve inscriptions in or on public buildings, and on our currency that have references to God such as "In God We Trust".

3. We oppose the granting of minority protection or special status to any person based upon sexual preference or lifestyle choices.

II. EDUCATION

***Preamble:** We acknowledge our dependence upon Almighty God and ask His blessings upon our students and their parents, teachers, and nation. It is the right and responsibility of parents (hereafter to mean parents and/or legal guardians) to direct their children’s upbringing and education whether public, private, charter, or education by other means without interference, regulation, or penalty from the government.*

The primary goal of public schools should be to teach proficiency in the basic subjects of phonics-based reading, written and oral communication, mathematics, sciences, history, founding documents, Godly heritage of our nation, critical thinking skills, basic morals, and civics. Locally elected school boards should have the authority to determine and implement all public-school curricula, policies, and procedures for their districts. We demand excellence and accountability from all tax-funded institutions of education in Oklahoma. The federal government has no constitutional role in education.

A. Philosophy

We Believe

1. We believe the traditional family unit, consisting of a (husband) man, (wife) woman, and child(ren) is the foundation of our social structure. The Oklahoma Department of Education and the various Boards of Regents should uphold and teach this definition of traditional family at all levels of public and higher education.
2. We believe individuals should have the right to choose their own education and career tracks.
3. We believe families should be allowed to use their education tax dollars for the family’s choice of schooling.

4. We believe in and affirm the right of students and school employees to the free exercise of religion as guaranteed by the First Amendment, including the right to wear and display religious symbols, voluntary vocal prayer, optional Bible and religious study, religious expression including holidays, and equal access to use of school facilities for these activities.
5. We believe the United States flag should be displayed in the classroom. Students should start the day by reciting the Pledge of Allegiance, including "one nation under God", and be taught the history of and respect for our United States flag.
6. We believe the K-12 public-school system is for the benefit of children of legal residents of the United States.
7. We believe schools should teach knowledge rather than teach children the philosophy, values, and theology to live by. Such responsibility belongs to a child's parents, family and church. We therefore oppose the teaching of character education programs, which are almost always developed and lobbied into schools by outside private parties without any oversight by school patrons. The psychological subtlety of the intended outcomes of such programs may elude a cursory review by administrators or board members.

We Support

1. We support free-market education and the use of educational savings account vouchers and/or tax credits.
2. We support parental access to examine and evaluate all educational, assessment, psychological, medical, physical, and all other records pertaining to their children. Active parental consent must be obtained before any physical or mental screening.
3. We support student participation in any program based upon prior written parental consent, without repercussion (opt in versus opt out). Notification to parents should be clear, simple, and descriptive.
4. We support The Ten Commandments being displayed in public schools as a means of moral guidance along with our national motto "In God We Trust" and the Bill of Rights. Public schools shall not prohibit the teaching of the Judeo-Christian worldview upon which our country was founded.
5. We support computer technology and calculators being used after basic math, reading, and writing proficiency are achieved to reinforce, not replace, the learning of basic skills.
6. We support notification of parents or legal guardians of medical treatment sought by students including dispensing of any pharmaceuticals. We oppose mandatory healthcare in public schools, vaccinations for students, and any forced mental health medication.

We Oppose

1. We oppose any government required community service condition for graduation.
2. We oppose the imposition of national curricula, testing, data collection and teacher certification, Common Core State Standards and associated assessments, and federally

mandated programs such as “No Child Left Behind”, “Race to the Top,” Early Learning Guidelines and Core Competencies.

3. We oppose overt racism by schools in the name of thinly-disguised faux efforts to “eliminate racism” which seek to achieve atheist, Marxist, or Socialist political outcomes by ending the recognition of, instruction in, or honor given to men motivated by Judeo-Christian ethics who made great contributions to the development of traditional Western Civilization.

B. Curriculum

We Believe

1. We believe the heritage of the United States of America should be taught and tested in public schools and include representative government, limited government, the lives and beliefs of the Founders, influence of the Bible and religion on our laws and principles, and the concept of free enterprise. Students should study directly from the primary founding documents, which teach the distribution of power among three branches of federal government and between federal and state government. Students should learn the difference between a democracy and a republic; and learn that our nation is a constitutional republic.
2. We believe when evolution is taught; Biblical creation and intelligent design must receive equal funding, class time, and materials.
3. We believe local school boards should exercise their right to choose curriculum and textbooks, including the Bible as a literature or history text, without state limitations.
4. We believe parents must maintain the right and responsibility to educate their children regarding sexuality and sexual conduct. We believe sexual abstinence is the only safe way to avoid sexually-transmitted diseases, HIV/AIDS, and pregnancy.
5. We believe English, the dominant language of our nation, should be the primary language taught in public schools with other languages offered as electives.
6. We believe that curricula should include the basics: phonics-based reading, grammar, composition, mathematics, government, history, science, spelling, penmanship, geography, and economics. We encourage the teaching of art, music, foreign languages, and sports/physical fitness.

We Support

1. We support curricula that promote national sovereignty and oppose one-world government and global citizenship.
2. We support the right of parents to personally observe all classroom instruction and activities.
3. We support the teaching of the Advance Placement U.S. History Course using the previously approved 2010 framework.
4. We strongly support the teaching in public schools of the scientific biologically verifiable X and Y

chromosomal definition of male and female at birth, and the use of locker rooms, sports team qualifications, and public restrooms based on the same definition.

5. We support the singing of traditional songs and teaching of patriotic literature in grades K-12.
6. We support teaching the basic rules of finance, such as economics, saving, investing, borrowing, balancing a checkbook, and living within a budget.

We Oppose

1. We oppose the portrayal of homosexual or promiscuous behavior in a positive light in public schools.
2. We oppose teaching multiculturalism that promotes cultural segregation. We respect different cultures and support teaching our commonalities as U. S. citizens.
3. We oppose the federal mandate that social studies curriculum be created or approved by the Center for Civic Education.
4. We oppose the implementation of the revisionist 2014-15 framework for the teaching of the A.P. U.S. History Course, which is in violation of the standards as set out above in Education: Curriculum: We Support: 1.
5. We oppose any non-chromosomal gender re-education and the teaching of LGBTQ lifestyle, history, and demonstration in public schools.
6. We oppose the teaching of the theory of anthropogenic global warming without providing equal time for instruction in the complex systems of geo-physics that cause observable climate change, such as solar variations, plate tectonics, and volcanic eruptions. We oppose public higher education funding of one-sided studies intended to prove anthropogenic global warming for the purpose of justifying wealth redistribution.

We Support

1. We support extensive background checks of prospective school employees, with the right of local school boards to refuse employment to anyone.
2. We support the freedom of local school boards to hire, direct, train, retain, or terminate any teacher who fails to provide the highest quality of instruction based on merit, not years of service.
3. We support the enforcement of Oklahoma statutes that prohibit teachers from strikes, walkouts, or semblance thereof during the school year by penalizing any district that closes its schools with a funding cut equivalent to the daily payroll and expenses of the district.
4. We support local school districts placing year-end excess monies into an interest-bearing account to encourage fiscal responsibility, and they should not be penalized by the State Department of Education for doing so.
5. We support public independent auditing of all public schools and institutions of higher education in Oklahoma.
6. We support the removal of automatic teacher tenure.
7. We support the consolidation of the teaching, technical, operational, and administrative resources of small school districts, but do not support the closing of individual schools.
8. We support the right of parents or legal guardians to apply for exemption for their children from school vaccination requirements for medical reasons, religious reasons, or other reasons of conscience.
9. We support and encourage schools to pursue security options, including but not limited to officers and school employees who are qualified to be armed.
10. We support teachers, school administrators, and the local school board working together to set and implement policies that give teachers the freedom and authority to lawfully maintain order, discipline, and safety.
11. We support scheduling school elections on the same dates as general elections.
12. We support the repeal of 70 O.S. Section 1210.515 which requires students under eighteen years old to take a portion of the eighth-grade state criterion referenced test in order to apply for a driver's license.
13. We support right-to-work laws, which provide all public school administrators, teachers, and staff the choice to refuse to join or financially support any union, political party, or any other organization.
14. We support legislation to require public schools to disclose the percentage of their staff that are members of the OEA/NEA and provide a copy of the current OEA/NEA platform to parents.
15. We support local school board appointed textbook committees to select the state/district funded textbooks. We favor elimination of the Oklahoma State Textbook Committee.

16. While we support professional development for teachers, we believe classes should not be canceled in order for public school employees to attend political conventions, electioneering/campaigning/voting, or union meetings.
17. We support the independent testing of radiation levels in all public schools with full disclosure of the proven hazards and impacts of radio frequency, electromagnetic, and microwave radiation upon children and youth (e.g.: mitochondrial and DNA damage and destruction).
18. We support the Oklahoma Constitution, which limits compulsory education to the ages of 8 through 16, and we oppose mandatory year-round schooling. We oppose mandatory expansion of public school in the area of preschool.
19. We support legislation requiring that lottery funds should be applied in addition to, not as a replacement for, state funding of schools.
20. To comply with the Tenth Amendment of the U.S. Constitution, we favor elimination and complete defunding of the Federal Department of Education and the transfer of its functions and funding to the states. In addition, we support the repeal of federally defined education mandates.

We Support

1. We support meaningful reform in the structure of our higher education system, including: Evaluation of all programs and individuals for the elimination and reform of substandard performing programs and individuals. 3. We support strict adherence to the law that requires the majority of the nine-member Board of Regents for the Oklahoma Agricultural and Mechanical College ("OSU") to be actively engaged in farming or ranching.
4. We support the enactment of campus carry policies at all public universities in Oklahoma.

III. STATE

***Preamble:** We believe all persons are responsible and should be held accountable for their actions. We believe in transparent and honest government with minimal intrusion, providing protection for all its citizens with fair and equitable treatment, enforcement, and justice. IV. FEDERAL

***Preamble:** The Constitution of the United States is the supreme law of the land and should be interpreted according to the original intent of the founding fathers as explained in the federalist papers. We call for reaffirmation of our God-given rights enumerated in the first ten amendments, the Bill of Rights. The Declaration of Independence, Articles of Confederation, Ordinance of 1787: The Northwest Territorial Government, and the Constitution of the United States together establish the exclusive basis of the rule of law for our nation. These Organic Documents supersede all subsequent legislation and judicial decisions. Our founding fathers based these first laws on traditional Judeo-Christian ethics and values. We believe these documents are the basis for law, order, and behavior, allowing individuals, including government officials, the freedom to involve God in all activities according to their consciences.*

3. We believe the US Congress should maintain the ban on earmarks.
4. We believe individuals, families, churches, and private organizations should take responsibility in meeting the needs of the citizens of the community.

7. We support transparency in government spending.
8. We support free, open, and fair markets.

12. We oppose socialized medicine, the Affordable Care Act, or any other nationalized health care system.

C. Constitutional Issues

We Believe

1. We believe the First Amendment's Establishment Clause was intended to prevent a federal government-sponsored or preferred religion, not to separate God from our government or to remove religion from public life; therefore, we affirm our right under the First Amendment of the United States Constitution to exercise our freedom of speech including religious speech.
2. We believe the Second Amendment is an individual right of the citizens of the United States to keep and bear arms; therefore, we oppose any attempts, whether by law or regulation at any level of government, to restrict any citizen's right to keep and bear arms (open or concealed), to restrict access to ammunition, or to record the purchase thereof.
3. We believe the United States Constitution directs the judiciary to interpret law, not make law or create law through judicial activism.

4. We believe in the concept that Congress shall make no law that applies to citizens of the United States that does not apply to the Senators and Representatives. Congress shall make no law that applies to Senators and Representatives that does not apply equally to the citizens of the United States.
5. We believe in the concept of nullification as a legitimate tool for adjudicating disputes between the states and the federal government when the federal government enacts a law clearly not in pursuance of the constitution, specifically when done outside the powers delegated to it in Article I, Section 8.
6. We believe in the Tenth Amendment that provides “the powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people,” and we oppose any attempt by the federal government to intrude on state’s rights.
7. We believe the Constitution provides for a clear and distinct separation of powers among the three branches of government. Any governmental action that tends to promote or allow one branch of government to practice the power or powers of the other branches of government is a violation of the limits placed on government by the people.
8. We believe in the duty and obligation of the federal government and the State of Oklahoma to adhere to and respect treaties between the federal government and the Indian tribes.
9. We believe that the individual right of a property owner shall not be abrogated in favor of another citizen or private entity through the use of eminent domain.

We Believe

1. We believe that a strong national defense should be fully funded, provide sufficient compensation, educational opportunities, quality training, and the best equipment for our armed forces.
2. We believe any educational institution that inhibits the normal operations of ROTC or military recruiters should be ineligible for government funding.
3. We believe foreign enemies who have committed or planned acts of aggression against the U.S. are unlawful enemy combatants and are not entitled to citizenship rights under the U.S. Constitution. We believe they should be held in detention facilities such as Guantanamo Bay, not the U.S. Prisons Systems, and their cases adjudicated by military tribunals, not by U.S. Criminal Courts.
4. We believe Congress and/or the President should refrain from weakening the military through changes to the Uniform Military Code of Conduct. The military should be allowed to maintain its high level of honesty, integrity, and morality and operational capabilities.
5. We believe in the complete accounting of all MIAs and POWs that were engaged in military actions by the United States.

We Support

1. We support maintaining a strong national defense and advocate “peace through strength”, with a combat ready and capable force.
2. We support the right of the military’s internal determination of who is qualified to perform the various roles and functions of each branch of the uniformed armed services.

3. We support veterans' and survivors' benefits, and to receive top quality health care. We support the reform of the Veteran's Administration and the use of private facilities when appropriate.

E. Election Reform

We Believe

1. We believe that former federal legislators should be restricted from working as lobbyists for a period of seven years following their last legislative term.

9. We support corporations giving to political campaigns.
10. We support a nationwide state by state adoption of a voting system that requires the vote to be verifiable by paper balloting.

3. We support the development of new technology for the development of nuclear energy for long-term energy needs.
4. We support the private expansion of oil and gas refining facilities.
5. We support the exportation of U.S. petroleum products.
6. We support the reversal of federal curbs, moratoriums, punitive taxes and fees on our domestic oil and gas industry.

We Oppose

1. We oppose the "Cap and Trade" system for carbon dioxide as the approach to dealing with so-called "climate change." This is really a pass-on tax, which is a disincentive for energy exploration and production and would result in skyrocketing consumer energy prices.
2. We oppose the "Green New Deal" and recognize it is the policies of UN's Agenda 21 and/or

2030.

G. Foreign Policy

4. We oppose any transfer of wealth from the U.S taxpayers to any foreign governments under the umbrella referred to as foreign aid except for humanitarian and/ or military assistance.
5. We oppose foreign control over any ports or bases within the jurisdiction of the United States.
6. We oppose support of, or participation in, a new global compact called a League of Democracies.
7. We oppose the creation of, or participation in, a Transatlantic Common Market.
8. We oppose efforts by our government to pressure Israel or any other nation into negotiating with terrorists.
9. We oppose The Kyoto Accord Treaty, the Paris Accords and any other future accords.

H. Immigration

We Support

1. We support legal immigration and appreciate and cherish legal immigrants, who appreciate and adapt to the American way of life.
2. We support securing our borders against illegal immigrants and potential enemies of the United States including building a wall or barrier on our southern border.
3. We support the meeting of legal requirements for citizenship, excluding the provision of birthright citizenship to children of illegal residents, or the pathway to citizenship.
4. We support a U.S. Constitutional Amendment that would deny U.S. Citizenship to any child born in the United States if neither parent is a legal citizen.
5. We support a strictly regulated and enforced guest worker program. Legal guest workers should assume social costs, such as education and health care for themselves and their dependents.
6. We support the method for determining the number of immigrants and temporary visa holders allowed in the United States should be revised to prevent an adverse effect on our national security, wages, housing, the environment, medical care or schools.

We particularly support the work of the men and women of Immigration and Custom Enforcement (ICE) and US Border Patrol and Protection.
8. We support the defunding of any government entity which declares a sanctuary for illegal aliens.

We Oppose

1. We oppose illegal aliens being given the same privileges as U.S. citizens or legal aliens, including entitlements such as Social Security, health care, education, and earned income tax credits; even if they or their children have work or student status.
2. We oppose non-citizens having the right to vote.
3. We oppose legal immigrants overstaying their visas.
4. We oppose a “path to citizenship” that would grant citizenship to illegal aliens faster than to immigrants who have come to the United States through legal means.

I. Social Security

We Believe

1. We believe that Social Security and government pension funds should be used only for the original purpose for which they were intended. Social Security is a contract with the United

States workers and not an entitlement. Raiding Social Security trust funds should cease, and raided funds should be replenished.

2. We believe Taxpayers should have the option of ownership and control over individual Social Security funds, including allowing a percentage of their Social Security tax to be placed in private investments of their choosing.

We Support

1. We support repealing the 1993 Clinton tax on Social Security benefits.
2. We support the participation of all members of Congress (past, present, and future) in the Social Security System with the American People. All funds within the Congressional Retirement Fund should be moved into the Social Security System.

2. We believe the United States should reverse any action taken by previous administrations that relinquish American Sovereignty and control of the Internet. In 2016 United States gave up control of the key operations and day to day management of the Internet to organizations that may not share our 1st Amendment freedoms. We believe private communications on the Internet should never be reviewed, recorded, or stolen by domestic or foreign enemies of the United States.

 - d. Cap and Trade Carbon Credit and Sequestration Program,
 - e. Conventions on the Rights of the Child, Biodiversity, and Discrimination against Women,
 - f. Law of the Sea Treaty (LOST),
 - g. Sustainable Population and consumption and production reduction initiatives,
 - h. Designation of land within the U.S.A. as a UNESCO World Heritage Center or Man and the Biosphere Reserve, and
 - i. The global roundtable for sustainable beef and the US roundtable for sustainable beef which

include UN guidelines that interfere with productivity of America's largest agricultural sector-beef.

We commend Christians, of all ages, who openly express their faith in the face of increasing opposition and persecution in public places including, but not limited to opposition to Health and Human Services (HHS) mandate currently persecuting Christians. 4. We commend all businesses that publicly support traditional Biblical religious freedoms and principles.

Condolences

We offer our condolences to the families of our soldiers, first responders, law enforcement officers and all United States citizens who have given their lives defending our country.

We condemn the vandalism on the Oklahoma Democrat Party headquarters. Although we strongly disagree with the positions of the State and National Democrat Parties, acts of violence and property destruction are contrary to our values and beliefs. These acts do not contribute to the debate for our Nation or the State of Oklahoma. The Oklahoma Republican Party strongly believes, we will win the hearts and minds of the people, based on the individual liberty, economic opportunities, and national success the enactment of our platform will provide.
