Fort Bragg

Hi Margie,

I did get the new cd at my home address finally and I think it is wonderful. I appreciate the comments because I saw the Oprah show as well and I was not impressed either. I've had the opportunity to meet Delores Johnson and she is a hard working person and has family readiness at heart but the media has a way getting ratings at the sacrifice of others and that's unfortunate. We are enjoying the holidays and thank you and Meg again for your support of our troops and our country.

*Soldier
Radio.com*

Marjorie Alfonso,

It was nice talking with you the other day. I would like to thank you for sending Soldiers Radio and Television, the CD, titled "A Letter from Home". Mr. Taylor (my boss) and I agreed that it would be something that we could play over SoldiersRadio.com. Since we are a automated system, it is kind of hard for us to give you a specific time as to when it will air. The only dedicated time for airing that is on schedule is my Sunday program hours, called Sounds of Sunday which air from 9-12noon. I do plan to play the song on Sunday, staring December 8th, hopefully it will air between 11:45 and 12:00.

Thanks again for the CD and best of luck in the future.

Margie,

We issue the CDs to Family Readiness Group leaders to play before and after their meeting so that the family members and soldiers realize that they are not alone in the effort to support Enduring Freedom and hearing the letter from home read to the music of America the Beautiful does something to the soul and spirit of the deployed soldier as well as the family member.

Our next Pre-Command course is in September and we expect about 25 to 30 commanders. Tonight, I am briefing a unit but at the bowling alley and I don't think they have the capabilities to play the CD but I will present one to the unit and encourage them to send it overseas.

I want to thank you again from the Deployment and Mobilization Program and Family Readiness. As you may well know, Ft. Bragg has had some unfortunate incidences concerning some of our soldiers who have been deployed and we want families to receive something from our training that will help them understand that it is possible to be deployed but not disconnected and that great Americans all over the United States are in support of that effort. I know that you cannot personally come to our FRG meetings but through this CD your Talent, Skills, Abilities and creativity will touch the hearts of many soldiers and their families.

Sincerely,

Mr. Thomas E. Forrest

Mrs. Alfonso -

Thank you so much for sending the CD. It was wonderful and your daughter has a beautiful voice. I wish you all much success w/ your ministry.

Thank you again

Camp Pendleton spouse

Margie,

Both of my CDs were raffled off at our last event, but it wasn't a good time to set up an order. I am taking the order form to our next meeting and event, but I need to know how much I owe you and what you are charging. I opened one of the CDs to listen, and they should come with a warning to have tissue available!

WONDERFUL!!!!!!

Thanks,

Kristen Schutte

no charge ever
