Dear Ms. Alfonso:

Your words and actions of support complemented my confidence in the position opposing the ratification of the Equal Rights Amendment to our United States Constitution. I am convinced more than ever that my vote "against" was representative of the thinking of the people of Oklahoma.

For your information you may or may not be aware that I and other Senators have been threatened by some elements of the ERA people; however, I have no fear and will continue to represent and vote what I consider the consensus of my constituents.

I have been asked by many people if I would consider making the race for Lieutenant Governor and after prayerful consideration I have decided to make the race. In order to be successful I will need an extra measure of support from you and our many friends.

Sincerely,

A handwritten signature in green ink that reads "Warren E. Green".
