Dear Legislative Leaders:

I would like to encourage each of you to attend the National Conference on HIV in Washington, D.C., on November 15-18, 1987. This conference is designed for the medical community and for others with an interest in achieving a greater knowledge of Aids and HIV.

Enclosed is a conference schedule, registration information and registration form. I feel it is vital that Legislators understand the up to date scientific and medical facts that will be presented by this outstanding faculty.

Very truly yours,

  
Jerry L. Smith
