Dear Meg,

I'm dropping you this note just to let you know how much I enjoy your song, "Reading." These days it's especially important to do all we can to make sure that our younger people have a genuine love for reading. If your song helps even one child learn to appreciate what being a good reader can mean to them in their lives, then you should consider yourself quite a success.

As a producer and host of inflight entertainment heard around the world, I have included "Reading" on children's shows aboard such diverse airlines as America West, Air New Zealand and Luxair.

Keep up the good work, and I'll look forward to hearing more of your music in the future.

Respectfully,

Craig Carpenter
Producer
